

Installation instruction Microsoft Windows printer driver

This instruction applies when you are logged in with your Windows computer on the HVA network.

1. Open the start menu and select **Run** (or use the shortcut Windows key + R).
2. Enter the following link: <\\Canamswapp05.ps1.mycanonprint.nl>
Note: When a security warning appears, click 'Allow' to proceed.
3. Fill in your HVA-ID@hva.nl (*) and password. (When required).

Important! When you use a private Windows computer you must also enter the domain name (*ad.hva.nl*), and behind the domain name you must only enter your HVA-ID (so without @hva.nl):
<ad.hva.nl>\HVA-ID.

4. Click on 'Follow-Me'. Use the right mouse button and choose "Connect"
Note: It may take a while before the printer driver appears.
5. To set the 'Follow-Me' as your default printer:
 - Open the start menu
 - Click 'Devices and Printers'
 - Click on 'Follow-Me'
 - Use the right mouse button and set as default printer
6. You are now ready to use the Canon printers from your applications!

* Example: *naarf@hva.nl*
